

HOTELS

A MOVIE-LIKE HOTEL

**OUR MOVIE
HOTELS**

Q Hotels presents itself in the world of the seventh art as a partner for film productions with a multitude of options.

Our natural and urban environment offers a variety of alternatives for filming large and small national and international productions.

We are fortunate to have natural scenery, history, monuments, museums, castles, beaches, mountains, caves, sea, rivers, lakes, forests and much more to discover.

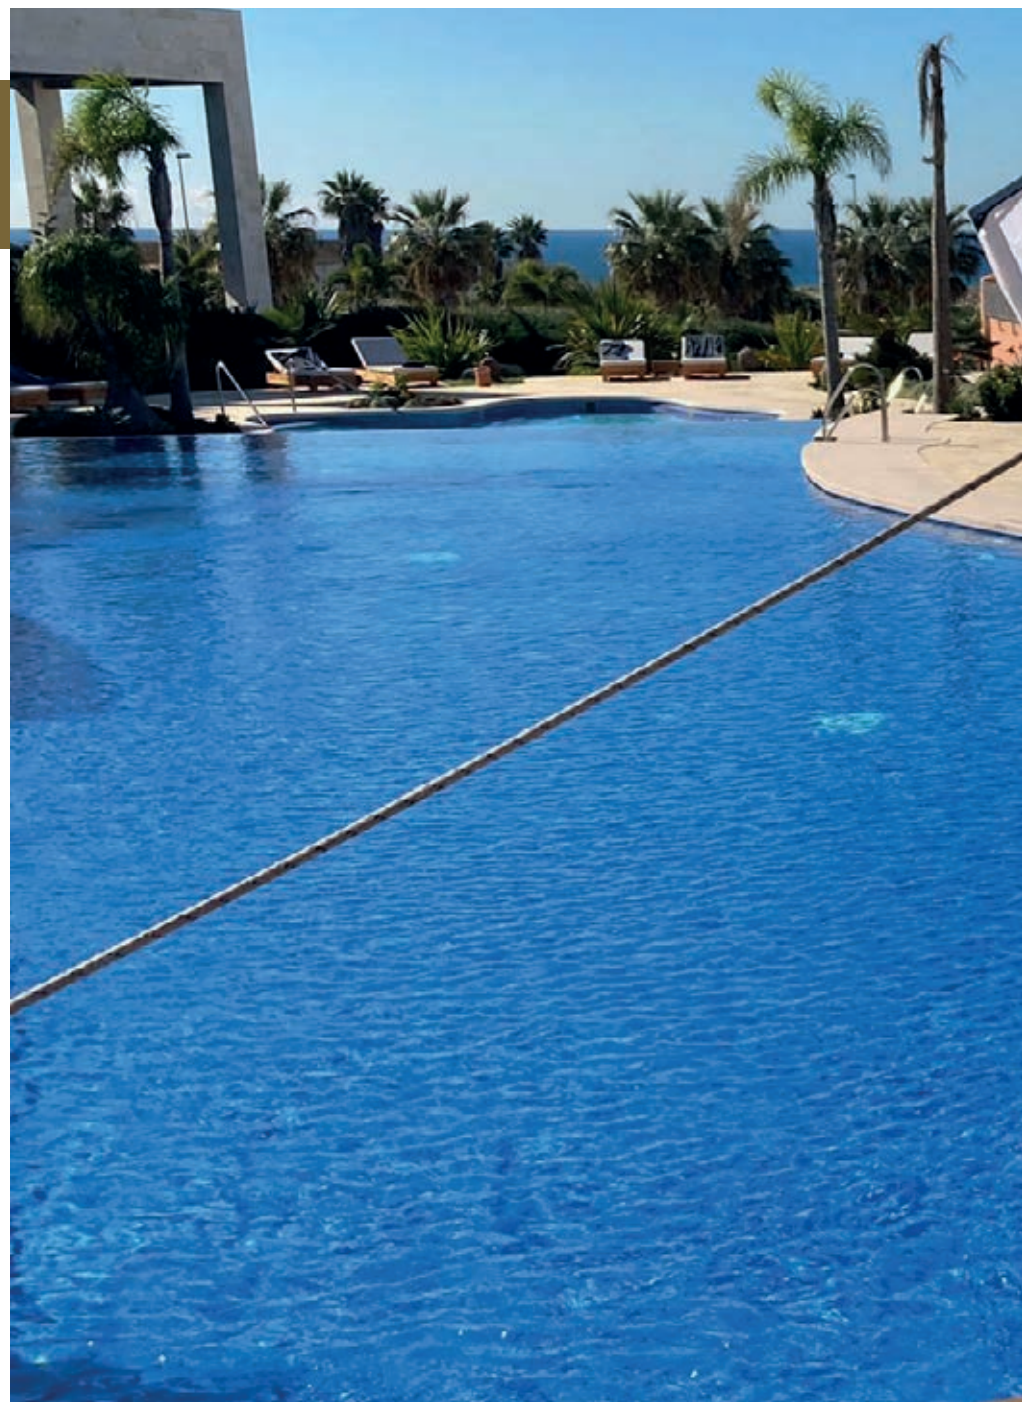

In short, we have an ideal location and environment that is underpinned by one key factor. The best climatic conditions to work almost every day of the year.

Who we are

Behind a team of professionals related to the hotel and catering industry, there is an artistic spirit in each of us who have been promoters of this initiative.

Although we are professionals in our sector, we know from our experience that we are a necessary part of any production when it comes to accommodation and catering for the production teams, artists, technicians, electricians, machinists, vips, etc.

From waiters, receptionists, bartenders, cooks, maintenance staff, managers, floor waitresses, guest relations, bellboys, etc. We have been working with the world of cinema for years thanks to the different projects we have been able to take part in and make it our own. But all this has an origin and a short story to tell.

Q Hotels has professionals who have previously worked with major productions before Q Hotels took its first steps into the world of cinema. These professionals have worked providing service with:

- Kingdom of Heaven. Ridley Scott with Orlando Bloom, Eva Green, Jeremy Irons, Liam Neeson, David Thewlis. 2005.
- 1492: The Conquest of Paradise. Ridley Scott with Gérard Depardieu. 1992.
- Night and Day. James Mangold with Tom Cruise, Cameron Diaz, Peter Sarsgaard, Paul Dano, Jordi Mollà . 2010.

Once they landed at Q Hotels, with the experience they had acquired, it was not difficult for them to adapt to a live set such as the locations and surroundings of our hotels.

And projects and more projects began to arrive until today. At the beginning, productions are always a little cautious to explain what a one-day shoot means, up to more than two and a half months, as we have already had. We even dared to organise a Fantastic Film and TV Festival with a "0" edition in 2018 and we improved it a lot and well in the 2019 edition: **FANTARIFA**.

Agreements

We have an agreement with PROFILM. We have worked and will continue to work with projects of some of their partners.
